

## Accreditation scope

Name of the accredited subject: **Yanfeng International Automotive Technology Slovakia, s.r.o**

Twin City C, Mlynské nivy 14, 821 09 Bratislava

**Odštepný závod Trenčín**

**Skúšobné laboratórium**

Bratislavská 517, 911 05 Trenčín

**Fixed accreditation scope of testing laboratory.**

**To mark the required scope of flexibility (in case the CAB requests a flexible scope of accreditation):**

The laboratory may modify and validate those test methods in the accreditation field, while maintaining the measurement principle.

Flexibility does not apply to changing the principle of the methods used in a given flexible scope.

- The laboratory keeps an up-to-date list of all test methods with a flexible scope of accreditation on the  
<https://www.yanfeng.com/en/technical-center-trencin>

The principle of flexibility can be used by the laboratory within the framework of:

- matrices,
- indicators,
- measuring ranges
- procedures used for testing.

**Personnel competent to modify and validate methods/develop new methods during the validity of the accreditation**
